AN OLD RECIPE TO DARKEN HAIR

Sage Tea and Sulphur Turns Gray, Faded Hair Dark and Glossy.

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural calor and instre to the hair when faded, stracked or gray; also ends dandruff, itching scalp and stops falling hair. Years ago the only way to get this mixture was to make it at home, which is mussy and trouble-grome.

Nowadays we simply ask at any drug store for "Wyeth's Sage and Sulphus Hair Ramady." You will get a large bottle for about 50 cents. Everybody uses this old, famous recipe, because no one can possibly tell that you darkened your hair, as it does it so institually and evenly. You dampen a sponge or soft brush with it and draw this through your hair, a taking one small strand at a time; by moraing the gray hair disappears, and after another application or two, your hair becames beautifully dark, thick and glossy and you look years younger.—Advertisement.
